

# Duo Air Purification System with PRO-Cell™ and AirFresh™

“Protect your HVAC system, home and family with an ozone free Duo Air Purification System, which features PRO-Cell™ photocatalytic oxidation and AirFresh™ carbon odor absorption technologies.”

## WHAT IS A UV WHOLE HOUSE AIR PURIFICATION SYSTEM & WHY DO YOU NEED IT?

Ultraviolet (UVC) germicidal lamp lights neutralize airborne germs to purify indoor air and keep the AC's A-coil clean. Duo goes two steps beyond UV lights with PRO-CELL and AirFresh technologies.

## WHY FIELD CONTROLS HEALTHY HOME DUO?

Field Controls' Duo air purification systems are proven IAQ solutions that are ozone free, have 6 patents, are compact and easy to install. The Duo combines PRO-CELL and AirFresh technologies for optimal whole house air purification by neutralizing airborne pathogens, deconstructing volatile organic compounds, and reducing odors in any home.

- PRO-Cell™ is an exclusive Photo-Reactive Oxidation process that transforms the odors and volatile organic compounds (VOCs) into harmless, odorless water vapor and carbon dioxide.
- AirFresh™ Carbon Odor Absorption uses activated carbon technology to trap VOC's and reduce odors.
- Powerful UVC germicidal light eliminates airborne bacteria, viruses, mold and fungi.
- Twist-n-Lock™ safety switch that turns the unit off when replacing the lamp.

### CONTRACTOR BENEFITS:

Fast & Simple to install

- No additional parts required
- 5 models: Three 24v and two 120v
- Twist-n-Lock built-in safety switch
- Easy lamp replacement
- Compatible with galvanized duct work and duct board systems

Contractor Premium Direct Program

- Buy 5 get 1 Free

Eligible for Contractors Rewards program

### HOMEOWNER BENEFITS:

Purified Indoor Air

- Removes 80% of VOCs
- Eliminates 93.6% of germs
- Neutralizes 88% of odors

Better Efficiency & Reduced AC costs

- Keep A-coil free of fungi, mold & toxic organics
- AC runs more efficiently
- Greatly reduce maintenance costs

## WHO IS FIELD CONTROLS?

Since 1927, Field Controls has focused on the development and manufacture of products that control, move, and improve the quality of air. Field Controls is part of The Heico Companies LLC.

- Excellent Customer Service and Tech Support
- Comprehensive training support
- ISO 9001:2008 certified
- Manufactured and assembled in USA
