

August 29, 2018

Dear Valued Customer,

This letter serves as notice, at this time, all manufactured Field Controls products are compliant to California Proposition 65 effective August 30, 2018 and the products listed on Attachment A have been labeled in compliance with the new California code.

Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, requires businesses to warn consumers in California before exposing them to specific levels of chemicals known to cause cancer, birth defects and/or other reproductive harm. Proposition 65 goes into effect August 30, 2018. The State of California Environmental Protection Agency lists approximately nine hundred (900) such chemicals. This list is required to be updated once a year.

Listed chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

You will notice that some of our product packaging will include a warning label which is Proposition 65 compliant. We understand that compliance begins with the manufacturer and, thereafter, throughout the supply chain. Please continue to check our website (www.fieldcontrols.com) for updates.

Sincerely,

Lynn Cahoon
EHS Manager, Field Controls

Attachment A: Proposition 65 Product Compliance List

file: FC Master Product Prop65 List (as of August 31 2018) rev A
